

Y1 Science Animals –humans (Nutrition & Movement) – KNOWLEDGE ORGANISER

KEY VOCAB (body parts)

Things everyone needs to know

Humans - This is the name given to us. We come from wider family of animals called mammals. Mammals give birth to live babies and feed their babies with milk. Most mammals are covered in hair. Other mammals include cats, dogs, cows and sheep.

Other common animals include fish, amphibians, reptiles, and birds.

Senses - all mammals, including humans, have five senses. They are: hearing, sight, touch, taste and smell.

Pupils will need to know which organs are associated with which of the senses.

We hear using our ears

We see using our eyes

We smell with our nose

We taste with our tongue when we put things in our mouth

We touch by using our hands and fingers

We have a brain, bones, and muscles that enable us to move.

We need to eat and drink to stay alive and we need a balanced diet. Humans are carnivores which means we eat meat and plants.

Exercise keeps us healthy.

Links to building the kingdom

Me, my friends and my family - what is the same and what's different?

We are all brothers and sisters in the eyes of God, in spite of language, culture or disability that might make us different.

Big question - What does it mean to belong?

What makes a person special?

Virtues - Grateful and Generous

RRS articles - 6,7,8, 23,37

Key skills -

Children will name the main body parts. (may include songs, games actions or rhymes to aid memory)

Children will know which body parts are associated which each of the senses.

Pupils will experience testing their senses and know some key vocab associated with taste, touch, hearing, smell and sight.
